 Examiner, Art Unit 2625

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner previously noted that it appeared that proposed amendments submitted by the applicant appeared to overcome the previous application of the references used in rejection of claim 22. However, after further thought, the examiner felt that specifying that first and second regions were to be laterally adjacent (or something of that nature) to preclude the possibility of the two regions on top of each other would provide a better chance of overcoming the previous application of the references. Any amendments will be fully considered when submitted formally for examination..
